

Features

- Totally self-contained miniature sensors
- 10 to 30V dc operation
- Visible red sensing beam
- Up to 1.0 m (39") sensing range
- Choose dark or light operate models
- Choose models with NPN (sinking) or PNP (sourcing) output
- 2-wire and 3-wire hookup; output load capacity to 50 mA
- Choice of integral cable or quick-disconnect pigtail

VS4 Series miniature self-contained sensors are designed for precision sensing in narrow areas previously accessible only to remote or fiber optic models. Typical applications include mounting inside small conveyors and electronic component handling equipment.

WARNING . . . Not To Be Used for Personnel Protection

Never use these products as sensing devices for personnel protection. Doing so could lead to serious injury or death.

These sensors do NOT include the self-checking redundant circuitry necessary to allow their use in personnel safety applications. A sensor failure or malfunction can cause either an energized or de-energized sensor output condition. Consult your current Banner Safety Products catalog for safety products which meet OSHA, ANSI and IEC standards for personnel protection.
